There are associated hilar calcifications within the lymph nodes suggesting an old healed granulomatous process. However, the small area of infiltrate was not present on similar projections of DEC 67, and must be considered an acute process. No other infiltrates are seen within the lung fields. The cardiac size and silhouette, mediastinum and surrounding osseous structures are normal.

IMPRESSION: Localized pneumonitis, left mid lung field. Follow-up projections should be obtained.

I saw this man last week and found a very profuse purulent rhinitis without any significant involvement of the sinuses. His cultures reported common flora and I started him on Maxipen, Sudafed and Otrivin spray. Today he is definitely unimproved and he has had a very productive cough (see sputum jar) and the purulent nasal drainage is continuing. Chest x-ray normal the AM. I would very much appreciate your evaluation.

The examination shows an acute purulent rhinitis with very profuse purulent discharge bilaterally and complete obstruction of the passages. Would very strongly recommend two or three days of bed rest in order to clear the infection completely.

(U) indexes must be continued. We should also be certain that all candidates who should be included are so listed. The ~~SOLO~~ Operation is still producing (S) valuable information and every effort must be made to preserve this valuable and sensitive activity.

(S) The detection of foreign intelligence agents is noteworthy; however, I am concerned with the decline in the number of double agents being operated (S) [redacted] I also note that at the present time there are no [redacted] (S) [redacted] We have serious gaps in our (S) intelligence coverage and I am particularly concerned about the Washington, D. C., area. If we expect to achieve maximum effectiveness in the counter-espionage field this situation must be corrected through immediate and aggressive action. While some progress has been made in the [redacted] b1 [redacted] there is a need to intensify investigations and increase informant coverage.

As instructed by the Inspector, you must constantly scrutinize and evaluate the various programs in your Division to insure they are productive and of continued value. I am pleased to note that you have instituted streamlining procedures which should result in substantial savings to the Bureau.

It was noted that there has been an increase in the work load of the Division and in spite of this there has been a reduction in the overall security delinquency. Every effort should be made to continue this desirable trend. The production of your stenographic pool is below the Seat of Government average and down from the last inspection. The number of retypes is above that of other Divisions. I am aware you have new personnel and, therefore, you should emphasize close supervision and training in your stenographic pool.

Your overtime was found to be productive and equitably shared and morale was rated high by the Inspector.

I have approved your request for four additional Agent supervisors and one additional clerk based on the increase in the work load of the Division. I expect you to closely follow the manpower needs to assure they are maintained at an absolute minimum and reduction effected wherever possible.

Your contact program was found to be effective, diversified, of high quality and providing valuable services.

Dear Mr. Hoover:

This morning I received your letter advising me that you had designated me to receive an Outstanding Performance Rating, along with the attendant Incentive Award.

I am so indebted to you for so many years and for so many things that any thanks expressed at this time would be most inadequate to register my true feelings.

As I think about this matter, my mind goes back to 1941, when I entered the FBI, and it sweeps rapidly along to the present time. It has almost been three decades now and each one has been packed with action, events, and interest. I don't think I could have lived in a more exciting period in the history of our country.

While I do not feel I merit the recognition you have given me, be assured my gratitude is pronounced. As in the past, I will make every effort to justify the confidence you have placed in me.

Thank you very, very much

DOMESTIC INTELLIGENCE DIVISION**

As Assistant Director in charge of the Domestic Intelligence Division, Mr. Sullivan is responsible for all matters relating to internal security, espionage, counterespionage, subversive controls and nationalities intelligence. In all aspects his services have been unique and so exceptional as to merit the rating of Outstanding for the period April 1, 1967, to March 31, 1968.

In the direction of the functions of his division, Mr. Sullivan has exhibited exemplary judgment at all times and, on a day-to-day basis, has made decisions which were completely sound and in the best interest of the Bureau. He has consistently and clearly demonstrated that he is entirely capable of directing the activities of his division, which has a most important bearing on the over-all success of the Bureau's operations. He has furnished superior leadership and direction to his staff. Mr. Sullivan has willingly assumed and capably discharged his responsibilities which have been of inestimable assistance in the handling of the heavy obligations of the FBI.

Dear Mr. Sullivan:

Your examination of 21 October has been reviewed.

All of the physical examination and the laboratory studies were within normal limits except for the X ray of the neck, which revealed some arthritis. Based upon your symptoms, this would appear to be the wear-and-tear type arthritis. Mild stretching procedure is sometimes beneficial for this condition. I would suggest that if symptoms become more annoying or disabling you bring this to the attention of a physician.

The physical examination, as well as some of the laboratory test, would indicate that your thyroid replacement is very adequate.

It was a pleasure being of service to you. Best wishes for the holiday season.

Sincerely yours,

b6
